Subject: Benzene Health Research Consortium

To Benzene Health Research Consortium Members -

This note is to inform you that you may be contacted by your respective Downstream Executives for information on the proposed benzene research consortium. The consortium effort was discussed on the May 24 API Downstream Committee conference call, and will be discussed again on their next call. The committee members requested additional written information, as well as company contacts that have been working the issue. This information was provided to them late yesterday afternoon, May 24.

Regards,
Lorraine
