Dear Matt:

Lou Shank was in touch with me today and stated that he had learned that the tanks at Carolina Terminals were cleaned in the following order.

No. 1 first, No. 2 second and A third.

"A" was cleaned on Monday, June 21st. He also stated that he was certain that none of the tanks at the Carolina Terminals had been spiked or had been used as a blending tank in any way.

Very truly yours,

A.J. Baldwin
