Isn't that so annoying? This is about the safety of our government as it relates to cyber attacks and connecting agencies with the right companies that can solve solutions.

I appreciate your feedback, as always. Literally anyone in that office will be super beneficial...a 10 minute phone, etc etc.

Hey Adnan, sorry for the delay I'll see what I can do. I think our CIO right now is a career staffer so I'm not sure how much help I can be, but I'll get back to you.

Michael – thank you again for being so responsive to my request yesterday. I am really looking forward to drinks next week with your team.

I have one favor to ask you and I promise, I will not ask for anything more. I have a cybersecurity client called Trapezoid, Inc. and they are interested in connecting with folks at the Chief Information Officers (CIO or CISO) at EPA.

Do you think you can help me out in making that introduction? I am just looking for a super quick meeting or phone call the next few weeks with Trapezoid's CEO...

Anyway,
