

WHITE LEAD PROMOTION PROGRAM

LEAD INDUSTRIES ASSOCIATION

Graybar Building, 420 Lexington Avenue
New York, N. Y.

March 22, 1945

Bulletin No. 801945 BUDGET-AGRICULTURAL
SERVICE DIVISION

To Members Supporting the White
Lead Promotion Program:

Supplementing our Bulletin No. 49, dated March 4, 1945, I am attaching a copy of the 1945 budget for the operations of the Agricultural Service Division which is an important part of our white lead campaign.

Please note that the American Gum Turpentine Farmers Association Cooperative is a large and important contributor to this program.

The new booklet, PAINTING FARM BUILDINGS AND EQUIPMENT, issued in cooperation with the U.S. Office of Education, Federal Security Agency, has been just distributed to vocational agricultural teachers, county agents and schools throughout the United States. Although it has only been out about six weeks, we have already had many enthusiastic responses from those who have received copies and the booklet already has the appearance of becoming a valuable tool for the education of agricultural circles in the United States.

Very truly yours,

H. W. Wagon
Secretary.
