

990-0072-1
MEMORANDUM

TO Mr. H. P. Leyendecker	SUBJECT World Wide Diesel Invoice Dated 8/23/78, M-1983-A	TO BE FILED MARINE DEPARTMENT P ____ T (\$ mo) ____
FROM J. McCracken	DATE December 6, 1978	FILE NO.

The attached invoice from World Wide Diesel for work performed on cargo pump engines of the EXXON GALVESTON appears to be correct. These cargo pump engines Cat. D398 were shipped from Newport News for overhaul in the shop of World Wide Diesel. All new main bearing caps were replaced along with the intermediate caps (part #2N7224). We have no service report on the overhaul, just their word that these parts were used. Review of previous invoices do not list these parts, so I believe there is no double billing involved.
