The right foundation

The right foundation for successful painting is B-H Paints—permanent pigments, a base consisting of a combination of pure carbonate of lead and oxide of zinc, ground in refined insect oil. Quality paints throughout.

Cheap paint is never satisfactory, the colors fade quickly, the paint wears off.

Start right. Use the B-H kind straight through the job from priming coat to finished surface, and you'll get a lasting finish that is the best insurance for any woodwork.

Made for over 50 years by
the Bass-Hueter Paint Co.
of San Francisco. Re-
cognized everywhere as the
"Paints of Permanence."
