Dr. R.A. Kehoe,
Department of Physiology,
College of Medicine,
University of Cincinnati,
Cincinnati,
Ohio, U.S.A.

Dear Dr. Kehoe,

This is to advise you that the Anglo-Iranian will shortly be completing their new Ethyl blending plant at Haifa, and we have been advised that Dr. Rutherford has been appointed Refinery Doctor and will be in charge of the medical side of the Ethyl blending activities. Dr. Rutherford's address is:-

C/o. Consolidated Refineries, Ltd.,
Haifa,
Palestine.

Dr. Boldero recently wrote to us, and as a result of a conversation between himself and Colonel Hunter he advised that he himself had written to Dr. Rutherford, but he asked us to send on the following material:-

Final Report of Departmental Committee on Ethyl Petrol, 1930.
Experimental Studies on the effect of Ethyl Gasoline, U.S.A. 1927.
Public Health Bulletin 163, U.S.A. 1926.
Rules and Regulations for handling Ethyl Fluid.
Excretion of lead by normal persons. Kehoe 1926.
Tetraethyl lead poisoning clinical. Kehoe 1925.
Behaviour of lead in animal organisms. Kehoe 1931.
Diagnosis and Treatment of Lead Poisoning. Kehoe.

Naturally I thought it preferable to write to you and ask you to get into direct touch with Dr. Rutherford as is your usual practice. In

KE 0015326

, Dr. R.A. Kehoe.

actual fact we would find it difficult to export printed matter from England now owing to the rather severe restrictions which are imposed by the postal censorship.

With kind regards,

Yours very truly,

H. FOSSETT.
