Mr. Meredith Littlefield
The Ethyl Corporation
1141 Huntly Drive
Los Angeles, California

Dear Ted:

I'm sure you know already, but I wanted to write and tell you how grateful we here at WOGA are for your cooperation in the arrangements for the visit of Dr. Kehoe.

I feel that he did a fine job of putting the facts on the record. Just reaching the audience at the California Club meeting alone was a considerable step forward in the job of keeping the industry safe from the spread of inaccurate information on the use of tetraethyl lead.

We will try, by judicious use of the transcript of Dr. Kehoe's remarks, to keep the local situation in hand.

Cordially,

(S)

Felix Chappellet,
Vice President and
General Manager
