

Class I and II Well Inspection Form US Environmental Protection Agency – Region 4 Underground Injection Control Program 61 Forsyth Street SW, MC 9T25, Atlanta, Georgia, 30303 Phone: (404)562-9424					Inspection ID	EPA Well ID#: F L S 1 1 3 0 0 1 7																																																													
						Year-Month-Day: 2 0 2 4 - 0 4 - 3 0																																																													
						EPA Permit # (or RA):																																																													
						Page 1 Of 2																																																													
Inspector(s): Carol Chen (lead), Carla Foy Start Time: 4:10 pm																																																																			
End Time: 4:15 pm																																																																			
Facility Contact Information	Facility Name: Maverick Natural Resources, LLC (Breitburn Operating LP)																																																																		
	Street Address: 5415 Oil Plant Rd																																																																		
	City: Jay County: Santa Rosa State: FL Zip: 32565																																																																		
	Nature of Business: oil and gas production																																																																		
	Facility Owner/Operator: Maverick Natural Resources, LLC Phone: 850-675-1702																																																																		
	Email:																																																																		
	Facility Contact (if different): Al Jones, Plant Superintendent Phone: 251-227-3319																																																																		
	O/O Mailing Address: 5415 Oil Plant Rd																																																																		
Well Data from File	City: Jay County: Santa Rosa State: FL Zip: 32565																																																																		
	Well Name & #: Rosie L. Kersey #10-3 API No. 0911320040 PA No. 311588																																																																		
	Well Type (see table): Enhanced Oil Recovery (EOR) State Permit: OG_522																																																																		
	Latitude (°N): 30.940722 Longitude (°W): -87.150944 Elevation (ft):																																																																		
	Injection Method (check applicable): ☐ Casing Injector; ☒ Tubing & Packer; ☐ Cemented Injection Tubing																																																																		
	PBTD: 15,754' ☐ Other: surface casing 10 3/4" to 3,678'																																																																		
	5 sets perforations Smackover																																																																		
	Total Depth (ft): 15,811' Inner Casing Size (in): 8 3/4" Tubing Size (in): 3 1/2" Packer Depth (ft): 15,113'																																																																		
Field Measurements and Observations	Inj. Zone: ☐ Open Hole; ☒ Perforated; Top(ft) 15,469' Bottom(ft): 15,646' Max. Injection Pressure (psig): 7,500 N2 gas 4400psi PW																																																																		
	Latitude (°N): 30.958303 Longitude (°W): -87.166627 Elevation (ft):																																																																		
	EPA GPS ID: S75332 Well Status (see table): AC If not Active, Reported Date Last Active:																																																																		
	Nature of Injected Fluid(s) if any: Nitrogen (N2) Gas Injection																																																																		
	General Condition of the Well Site:																																																																		
	Notes & Comments (include discrepancies from database values):																																																																		
	DANGER sign: H2S May Be Present...Hazardous Operations...Keep Out...Hot Piping...																																																																		
	This well is actively injecting Nitrogen (N2) gas. Tubing gauge: 5300 psi																																																																		
Production gauge: 0 psi																																																																			
Surface gauge: 0 psi																																																																			
Flow Line gauge:																																																																			
See reverse for additional observations, comments and photo log
