

EXPERIMENTAL WORK UNDER NEGOTIATION (MARKED ?), ACCEPTED,
OR IN PROGRESS IN KETTERING LABORATORY, FINANCIAL SPONSOR-
SHIP AND FUNDS AVAILABLE OR ANTICIPATED FOR USE IN 1946

NOTE

Ethyl Corporation advances the funds required by the budget as a matter of our convenience, with the understanding that funds received from other sponsors during the year (not all of which can be anticipated when the budget is set up), will be accounted for and refunded to Ethyl Corporation at the end of the year to the extent of the active cost of work done within the year.

<u>TYPE OF EXPERIMENTAL WORK</u>	<u>SPONSOR</u>	<u>ESTIMATED COST (1946)</u>
Physiological Behavior of Lead	Ethyl Corporation	\$50,000 to \$60,000
Industrial Lead Exposure	" "	10,000
Toxicology of Certain Halogenated Hydrocarbons	" "	10,000 to 20,000
Industrial Lead Exposure	E. I. du Pont Co.	3,000
Physiological Behavior of Fluorine	Pennsylvania Salt Manufacturing Co.	2,000
Industrial Exposure to Fluorine	Pennsylvania Salt Manufacturing Co.	2,000
Industrial Exposure to HF	Universal Oil Products Company	1,000
Toxicology of Selenium	Lehman Brothers*	6,000
Toxicological Investigation of New or Previously Investigated Chemicals Projected for a Variety of Uses	(Commercial Solvents Co. (American Cyanamid Co. (Monsanto Chemical Co. (Wyandotte Chemical Co.	5,000 7,500 12,000 2,500
Industrial Exposure to Mercury	Wyandotte Chemical Co.	1,250
Toxicology of DDT	Geigy Company, Inc.	2,000
Toxicology of Certain Organic Mercury Compounds	Mallinckrodt Chemical Co.	2,500
Toxicology of Metallic Mercury Vapor	Wyandotte Chemical Co.	5,000?
Physiological Behavior of Ketene	B. F. Goodrich Co.	5,000?
Toxicology of Certain Chlorinated or Fluorinated Compounds	Department of Chemistry, Purdue University	2,500?
Contamination of Soil, Vegetation and Atmosphere near Industrial Plants with Fluorine	(E. I. du Pont Co. (Socony-Vacuum Oil Co.	1,000? 500?
Carcinogenic Effects of Certain Petroleum Products	(C. P. Hall Co. (Rubber Products) (American Petroleum Institute	500 6,000
Toxicology of Hexavalent Chromium	Heem Research Products	5,000?

*Lehman Brothers are the bankers for a group of responsible individuals interested in a medicinal product containing selenium, which will not be exploited unless it can be shown to be both safe and therapeutically efficacious.
