Rosenau Hall
Chapel Hill, NC 27599-7400

Dear Dr. Swenberg:

A copy of my correspondence with EPA on vinyl chloride risk assessment is enclosed. I plan to arrange a conference call in mid-September to coordinate the Vinyl Chloride Panel presentation to EPA on Richard Reitz's pharmacokinetic model. The conference call would include Richard Reitz, Jonathan Ramlow (Dow), Jim Knaak (Oxy), you and myself. Meanwhile, please review the enclosed material in light of your recent research findings to see if the data can further aid vinyl chloride risk assessment.

I will contact you shortly to confirm the EPA meeting and explore possible dates for the conference call.

If you have any questions, please contact me at (202) 887-1192.

Sincerely,

A handwritten signature in cursive script that reads "Has Shah".

Hasmukh C. Shah, Ph.D.
Manager, Vinyl Chloride Panel
