In Reply to _____ Date 7/24/75 From W. S. Kimball-BT To C. Homan - BRQ
Subject VERMONT ASBESTOS GROUP ~~at~~ K. Colvin- MS

Attached is a letter and specification of the grades of asbestos available in Vermont. As you can see, this asbestos is not presently available, but will be available in the future.

I believe that part of the sample that went to BBH has been forwarded to Shreveport.

Please look over this letter and the sample of the asbestos and let me know if this product will be satisfactory as an alternate product in the future.

July 18, 1975

Mr. Wm. S. Kimball
Director of Purchasing
Bird and Son
East Walpole, Mass. 02032

Dear Mr. Kimball:

Under separate cover we have forwarded 10 lb. samples of our 6D3 and 7R3 grades of asbestos.

Our fibers are generally low in absorption which probably will require some adjustment in formulations for asphalt cements.

We do not have any fiber available at this time and do not expect to have any for the balance of this year.

Our Price List No. 2 and data sheets for our 6 and 7 group fibers are enclosed.

We thank you for your interest in our fibers.

Yours very truly,

J. K. Gilmore
Sales Manager
