

Two-cylinder "Universal Unaflo" driving
compressor, in Brewery Power Plant.

300-Horsepower Horizontal "Universal Unaflo"
in Meat Packing Plant.

For Over 80 Years, Doing One Thing Well—Building Steam Engines
SKINNER ENGINE COMPANY, ERIE, PA.

RUN down the list of American industries which are depending on Skinner Engines for unfailing, dependable power . . . to generate electricity . . . to drive compressors and pumps . . . for refrigeration and air conditioning. They have low-pressure steam as a by-product, for space heating and for use in varied manufacturing processes.

This list includes Agricultural Implement Manufacturers, Chemical Plants, Cotton Oil Producers, Electrical Appliance Manufacturers, Forging Plants, Foundries, Gas Companies, Glass Manufacturers, Machine Tool Builders, Oil Refineries, Potteries, Rubber Manufacturers, Steel Companies, Textile Mills, and Woodworking and Furniture Plants.

Among these and many other classes of money-saving users of Skinner "Universal Unaflo" Steam Engines are some who had power problems similar to yours . . . and solved them with a Skinner installation.

Hand-Model Lift Truck

1223 • New portable lift truck features one-man operation and will reportedly lift 1000 lb to a height of 53 in. easily and safely. Unit will operate in narrow aisles and will turn easily in close quarters. Combination snap-on plate permits use as platform truck when forks are not required. Further details may be obtained from manufacturer.

Safeway Industrial Equipment Corp.,
184 N Franklin St, Chicago 6, Illinois

Concrete Sealer

1250 • New, easy-to-apply sealer for new or used concrete floors acts as protective coating to prevent dusting and spalling. Sealer permits residual moisture to rise out of new concrete so that floor can be used sooner. Manufacturer claims sealer can be applied without prior acid treatments and that single coat is sufficient. One gallon of product covers from 400 to 600 sq ft.
West Disinfecting Co., Long Island City,
New York

Steel Caster

1237 • New heavy-duty steel caster features low cost plus unusually strong construction. Product is designed to take punishing loads of powered assembly line dollies, heavy trucks and similar equipment. Caster has double ball-bearing race for quiet easy swivelling. Available in 5, 6, 8 and 10-in. sizes with semi-steel, forged-steel or rubber-tread wheels, new unit has load

Are You Putting Up This Sign Too Often?

Putting this sign up just once is too often.

Most of the time it means a costly shut-down, idle workmen, delayed production, very often caused by the failure of such a low-cost, but extremely vital item as portable cords. U.S. Rubber scientists have engineered U.S. Royal Portable Cords and Cables to give the longest possible life and durability. The flexible conductors are insulated with a high-grade rubber compound, and the conductor assembly is protected by

60% Neoprene jacket vulcanized in lead—thereby assuring maximum density and ruggedness. Rubber fillers are used in all portable cables, and also in the larger sizes of the portable cords. In all cases, the Neoprene jacket is reinforced internally with a strong fibrous braid.

U.S. Royal Portable Cords and Cables have extra efficiency and strength that make them ideal for use on portable electric machinery, tools, lamps, electric sanders and polishers, railroad equipment, and

wherever a tough flexible cord is required.

Remember that United States Rubber Company is the only manufacturer of electrical wire and cable to grow its own natural rubber and make its own synthetic rubber and plastics. That's why "U.S." gives you a quality controlled product. Write to address below for your free copy of our general catalog on electrical wires and cables.
