Dear Bob:

I am indeed very much obliged to you for your letter of January 29 in reference to the file of correspondence with Felix Wormser of Lead Industries Association. Your remarks are quite helpful and certainly I share your view. I hope I shall have the opportunity some time in the very near future of discussing this matter further with Mr. Wormser.

Apropos of lead hazards, as I recall it, some time ago both du Pont and Ethyl management were going to receive quarterly reports from you as to the hygienic conditions at both plants. We did receive a very comprehensive and excellent report from you on past conditions and I am wondering whether we might expect something soon covering current conditions. I know that you are quite busy and certainly do not want to appear to be pressing you for this but I would like to know if there will be something forthcoming shortly.

Sincerely yours,

J. H. Schaefer
