

NEWS LETTER

ROOM 2020

No. 103 1940 - January 3.

NAME OF DIVISION CHANGED

The operating name of the National Pigments & Chemical Division of National Lead Company has been changed to the Baroid Sales Division. The change became effective the first of this year.

ATLANTIC TO MAKE LEAD MIXING OIL

Equipment for the manufacture of Lead Mixing Oil will be installed in the new linseed oil mill building now under construction at the Atlantic plant in Brooklyn. It is expected that the equipment will be in operation about April 1.

APPOINTMENTS AT AMERICAN LEAD CORP.

T. C. Hoelzer, formerly manager, has been made a vice-president of the American Lead Corporation at Indianapolis.

Chris. Haan, formerly assistant manager, succeeds Mr. Hoelzer as manager.

CINCINNATI SALESMAN RETIRES

P. B. Sullivan, of the white-lead sales department of the Cincinnati branch, retired Dec. 30 after 44 years of service. His associates honored him at a dinner during the recent mid-winter meeting of the branch sales personnel and presented him with a wardrobe suitcase.

Mr. Sullivan joined Cincinnati in 1895 as a bookkeeper and was appointed a salesman five years later. He spent 35 years on the road, most of the time in the Indiana territory.

LABORATORY MAN RETIRES

A. G. Belden, on the staff of the Brooklyn research laboratories, retired Dec. 30. Mr. Belden, a graduate of Yale Sheffield Scientific School, joined the laboratory in 1905.

A. W. SCOTT 25 YEARS WITH COMPANY

A. W. Scott, director of white-lead and oxide sales for the Pacific Coast branch, completed his twenty-fifth year of service with the Company on Dec. 1.
