Hi Steve. In response to your request for information about small refinery exemptions, the numbers for the 2017 compliance year are not settled because several applications are still under consideration. For the 2016 compliance year, we received 20

petitions from small refineries. We granted exemptions for 19 of those, with a total exempted volume of 790 million gallons of renewable volume obligations. We denied 1 petition. Interestingly, D6 RIN prices during calendar 2017 ranged from about \$0.40 to about \$1.00, which is a good bit above transactional costs (which we think is in the neighborhood of 2 or 3 cents).
