RESPIRATOR PROGRAM

Allen Menke has informed me that you and Dr. Dawson will be in Rockdale on March 15 to review our hearing conservation and noise control programs. Perhaps during your visit we can also find time to talk about the proposed respirator program which I described to you in my letter of February 15. This is another area in which we need to get busy, and we'd appreciate any input you might have.

A handwritten signature in cursive script, appearing to read "E. B. Parker".
