Dear Valued Customer:

Distribution International, specialists in the field of distribution, fabrication and marketing, is unique with its diversified product line and the ability to maintain the valued service levels required by the industrial and commercial insulation and asbestos abatement industries.

The ENVIRONMENTAL SUPPLY DIVISION specializes in the nationwide distribution of the multi-faceted products, equipment, and consumables required to support the asbestos abatement industry.

The phrase "One Stop Shopping Convenience" is the philosophy of the Division. The understanding that time is critical, quality products are mandatory and service is primary allows the Environmental Supply Division to efficiently service the requirements of this complex industry.

Multiple national facilities, housing extensive inventories, linked together with modern computerized techniques coupled with knowledgeable, dependable and experienced personnel emphasize the division's greatest attribute -- customer contact and service.

Since we represent a large number of leading manufacturers and handle such a vast diversity of products, it was impossible to include all items in our catalog. Should your requirements not be shown, do not assume we don't have it. It's probably on our floor waiting for your call or we will exert every possible effort to locate it for you.

We welcome your inquiries and would appreciate the opportunity to service your requirements.

Thank you for considering Distribution International. We look forward to your request and most importantly to working with your company.

Sincerely,

DISTRIBUTION INTERNATIONAL

TERMS & CONDITIONS

Terms of Payment: Net thirty days from date of invoice, unless otherwise stated, to established/approved accounts. A 1 1/2% per month service charge will be applied to all balances due beyond thirty days.

Delivery: F.O.B. shipping point unless otherwise noted.

Returned Goods: No merchandise can be returned without advanced written authorization. Any item authorized to be returned will be subject to a minimum restocking/handling charge of twenty percent plus freight.

Cancellations: Orders for items of special design or made to special order, or of a type not normally carried in stock cannot be cancelled without our obtaining written permission from the respective manufacturers and/or approval of Distribution International.

Order Acceptance: All orders are subject to final acceptance by an officer or authorized agent of Distribution International. Prices are subject to change without notice, are exclusive of sales taxes and delivery. All orders are subject to credit approval prior to being released for shipment. All orders accepted are subject to the "Terms and Conditions" contained herein and the "General Terms and Conditions of Sale" as established by Distribution International.

ADHESIVE SPRAYS, REMOVERS & TAPES

BF Goodrich Plastilock S707 is a multi-purpose spray adhesive. A pressure sensitive spray adhesive for general use. Strong, quick tack yet allows time for material positioning. Minimal soak in. Good open time.

12/case of 17 oz. cans #8A0100100

BF Goodrich Plastilock S900 extra strong, extra fast adhesive spray for permanent high performance applications. Has good heat resistance up to 140 degrees F. Minimal soak in period. Long open time.

12/case of 18 oz. cans #8A0100101

AEROSOL ADHESIVES & REMOVERS

Industrial adhesives are designed for sticking polyethylene film to almost any surface where maximum strength and heat resistance is required.

AM-REP Stuck-Up Adhesive Spray is used in preparing for asbestos abatement projects. It is perfect for tacking up polyethylene sheets to walls and other surfaces for permanent or temporary bonds. Stuck-Up produces a watertight seal thats perfect for overlapping of sheets. The unique spray tip can dispense a high solids translucent adhesive in a string or web pattern simply by rotating the tip. DOES NOT CONTAIN METHYLENE CHLORIDE.

12/case of 17 oz. cans #8A0100301

AM-REP - A-Tack Adhesive Remover is used for cleanup of adhesives. "A - Tack" is specifically designed for asbestos abatement applications where adhesives are used for tack-up of temporary or permanent bonds. In addition, its high dielectric strength makes this solvent ideally suited for use on electric motors and other electronic equipment while in operation. A-Tack also removes greases and tars.

12 /case of 20 oz. cans #8A0100302

AM-REP - Di-Arrest Encapsulant Sealer With Dye penetrates, encapsulates, seals and is readily identified with black light inspection. Place a can in glove bags for easy encapsulation on pipework. Use this product for encapsulating and sealing after core-survey sampling.

12/case of 20 oz. cans. #8I0100600

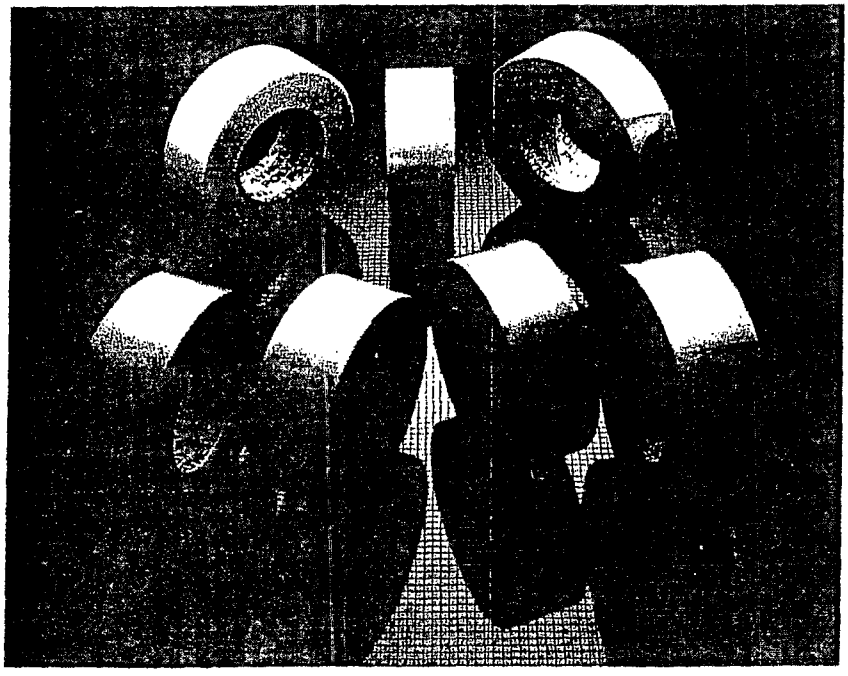

3M High Tack Adhesive 76 is a high-tack adhesi fast strength buildup. Effectively bonds most ma even polyethylene and polypropylene. When sprayi one surface, this aerosol adhesive provides the st bonds available from our aerosol line.

12/case of 19 3/4 oz. cans #8A010020(

3M Super 77. The original industrial-grade adhesive--now dramatically better than ever. Ext versatile, securely bonds most lightweight material

12/case of 17 oz. cans #8A010020

INDUSTRIAL TAPES

AIR & BULK SAMPLING

sidyne's BDX 74/75 Asbestos Personal Air ıpling Pump

ıge from 1.5 LPM to 4.5 LPM allows you to ırately monitor for asbestos using both the IA Revised Sampling Method at 2 .5 LPM at the higher flow rate required by NIOSH ıod 7400 (i.e., 4 LPM). Designed for asbestos ıling for up to eight hours in excess of 4 LPM. ıporates a built-in flow meter, rechargeable d battery pack, and adjustable flow rates.

#8C0100109

Sensidyne Model 7400 Asbestos Sampling Kit

This kit contains the BDX 74 personal air monitoring pump, capable of sampling at 1.5 to 4.5 LPM through a 25 mm 0.8u filter for 8 to 10 hours. The most versatile asbestos sampler available. The BDX 74 and all required accessories are packaged in a handy carrying case.

Model 7400 Asbestos Air Sampling Kit includes:

BDX 74 Asbestos Pump		#8C0100109
BDX 74 Battery Charger (115 volt)		#8C0100114
BDX 74 3' Hose and Clip Assembly		#8C0100117
Lurer Fittings (2)		
25mm 3 Part Filter Holders (6)		
0.8u Filters (25mm)	100/each	
Back-up Pads	100/each	
50mm Extension Cowl (2)		
Tweezers		
Screwdriver		
Carrying Case		

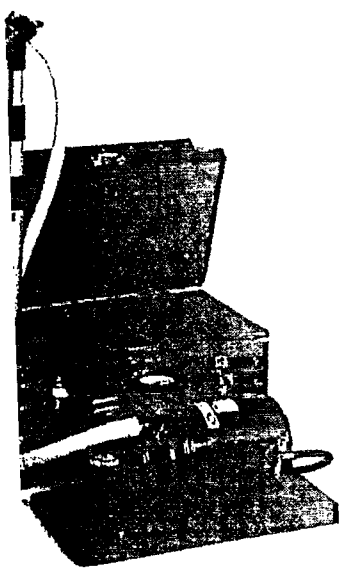

BDX 74 Pump Accessories

BDX 74 Spare Battery	#8C0100116
BDX 74 Five Unit Charger	#8C0100115

Sensidyne EZ Cal I Digital Flow Meter

Now you can accurately calibrate air sampling pumps and rotameters quickly and reliably with Sensidyne's EZ CAL I, a primary automated air flow calibrator. Your EZ CAL I insures fast, accurate, reliable and reproducible results.

#8C0100118

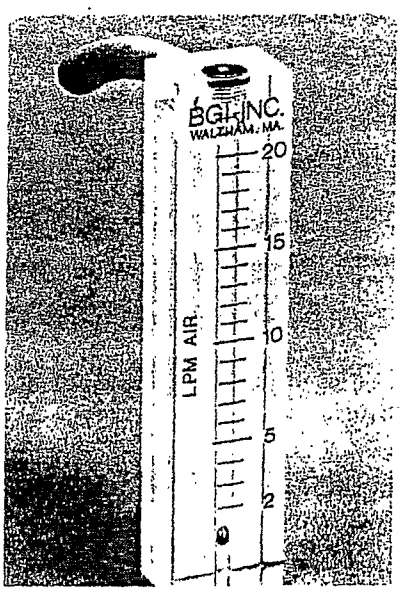

BGI-ASB II High Flow Sampling Kit

This high flow sampling device monitors large volumes of air in a short period of time. The ASB II is one of the lightest, most popular units available with a carbon vane pump requiring no maintenance for a minimum of 3,000 hours.

Complete kit, pump and stand assembles and operates in its own carrying case.
Weight: 15 lbs.
Dimensions: 13" x 8" x 7 1/2" #8C0100100

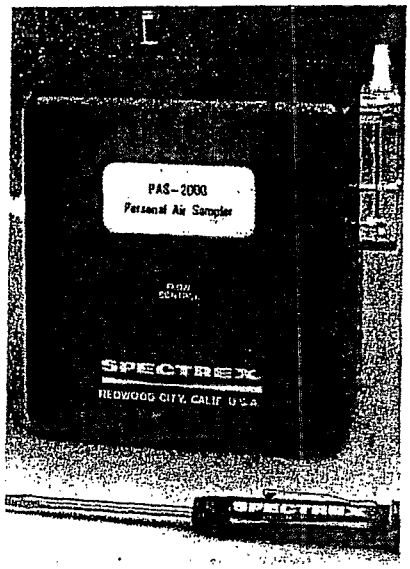

BGI Rotameters are specially fitted with a hose and nipple to plug directly into a filter cassette for checking calibration. Ideal for calibrating any high flow sampling pump with a flow rate up to 20 LPM.

RM-67 2-20 LPM #8C0100108

AIR & BULK SAMPLING

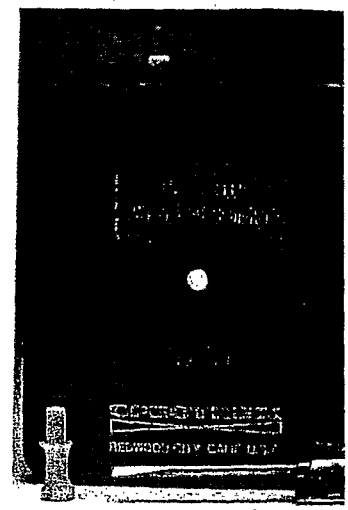

SPECTREX AIR SAMPLING PUMPS AND EQUIPMENT

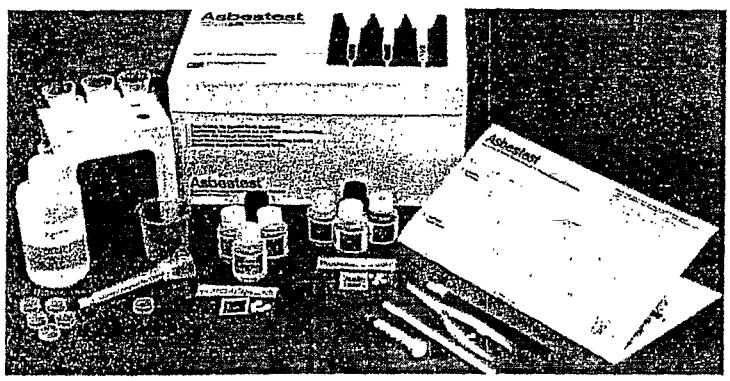

Spectrex PAS 1000
Pocket size , fits in shirt pocket with 0.5 to 2,000 cc/minute flow. Over eight hours for flow rates up to .75 LPM; four hours for 2 LPM.
Weight: 10 oz.
Dimensions: 3" x 4" x1.4" #8C0100103

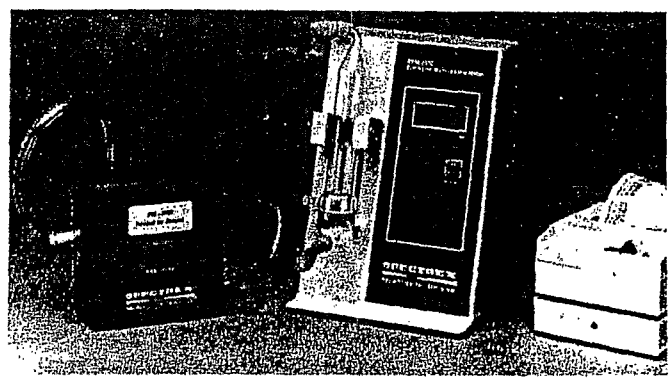

PAS-1000 Spare Battery Clip enables user to keep hot set of batteries at all times. #8C0100111

Spectrex PAS 2000
0.6 to 3 LPM. Stripped down version of PAS 3000, includes a rotameter. Does not include carrying case, servo or adjustable stroke.
Weight: 2 lbs.
Dimensions: 4.2" x 4.6" x 2.4" #8C0100110

Spectrex PAS 3000
Personal air sampler kit. 5 cc - 3 LPM. Includes carrying case, battery charger, screwdriver, on-off key and manual.
Weight: 2 lbs.
Dimensions: 4.2" x 4.6" x 2.4" #8C0100107

ASBESTEST KIT

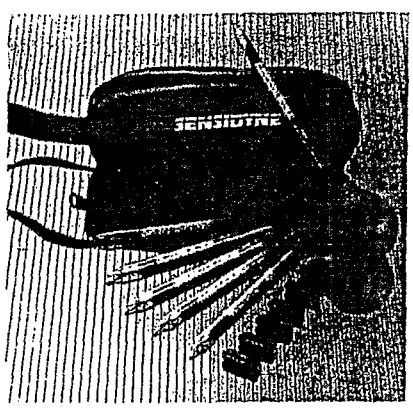

Complete test kit for screening sample materials for possible presence of asbestos. Easy to use, no expensive training required, may prevent costly bulk sampling analysis. Good for 55 bulk samples. Simple instructions, easy to transport. Includes test tube holder.

#8B0100103

BFM 2500 Electronic Bubble Flow Meter 5 to 4000 cc/minute. Standard 9-Volt b operated, automatic "power off" feature, LCD digital display. Complete with solution.
Weight: 2 1/2 lbs.
Dimensions: 5" x 6" x 9" #8C0100105

DISPOSABLE GARMENTS & ACCESSORIES

KLEENGUARD™ Coverall Fabric: Asbestos Barrier Performance

Regulations put forth by the Occupational Safety and Health Administration require protective garments be provi employees who are exposed to specified concentration levels of asbestos fibers 5 microns or greater in length with a length to ratio of at least 3 to 1 (29 C.F.R.-1910 AND 29 C.F.R.-1926).

The fabric used in Kimberly Clark KLEENGUARD Coveralls complies fully with the OSHA standard because it is an eff barrier against asbestos fibers of the defined size as evidenced by testing conducted by independent laboratories.

In addition to KLEENGUARD being an acceptable protective garment as defined by OSHA regulations 29 C.F.R.-1910 C.F.R.-1926, the fabric in KLEENGUARD workwear is breathable, allowing dissipation of body heat that can contrit unacceptable heat stress and worker fatigue.

27" Flexible Glovebag Cable Saw		#8K0100204

All polyethylene glovebags are available in 10 mil thicknesses on a special order basis.

* The 5-in-one glovebag was designed to save time and money during asbestos abatement jobs in which extended sections of horizontal pipe are involved. This bag can provide up to 18 feet of enclosed work space on pipes up to 14" in diameter. It can be installed easily by one man in minutes. Five individually sectioned debris areas permit fast manageable disposal. This concept maximizes time and dollar savings while limiting environment and human exposure.

NEGATIVE AIR EQUIPMENT

MAGNUM AIR™ Negative Air Machine is the ONLY Neg Air designed to operate at the high static pressures produced with loading HEPA filters. Meets or exceeds EPA and OSHA standards. Produces more consistent air flow at 25% of the filter cost of other neg airs. The revolutionary new MAGNUM AIR will outperform any negative air on the market today.

MAGNUM AIR breaks the static pressure barrier by delivering more air at 3 1/2" static pressure than others do at 2" static pressure.

Weight: 160 lbs.
Dimensions: 26" x 31" x 46"
#8M0100304

QUICK CLEAN™ Explosion Proof

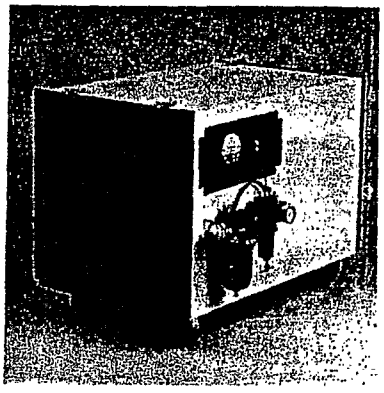

Explosion-proof negative air filtration system designed for portable use in flammable working environments.

Weight: 205 lbs.
Dimensions: 25" x 25" x 36" #8M0100302

QUICK CLEAN™ 2000 Class Negative Air Machine

All QUICK CLEAN equipment has been designed to meet and exceed EPA and OSHA standards. These units are durable, lightweight and operate more quietly and less expensively than comparable equipment.

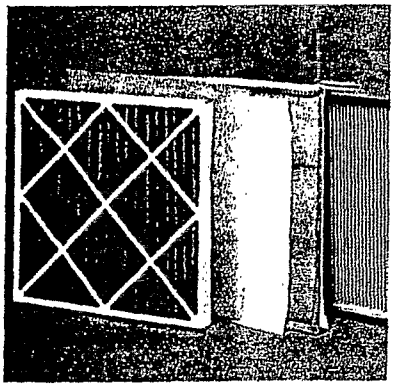

Weight: 180 lbs.
Dimensions: 25" x 25" x 38" #8M0100301

QUICK CLEAN ™ Pneumatic 2000 CFM

This negative air filtration system is designed for use in an explosive environment where the use of electricity is not permitted or advisable.

Weight: 135 lbs.
Dimensions: 25" x 25" x 38"
#8M0100300

NEGATIVE AIR FILTERS

Primary Filters
A multi-ply disposable filter media designed to fit the existing gap between conventional low efficiency, single stage filters and expensive HEPAs. Tackified on downstream side to prevent unloading.

12" x 24" x 1" Primary Pad	40/case	#8M0100106
16" x 20" x 1" Primary Pad	40/case	#8M0100108
18" x 18" x 1" Primary Pad	40/case	#8M0100110
24" x 24" x 1" Primary Pad	40/case	#8M0100100

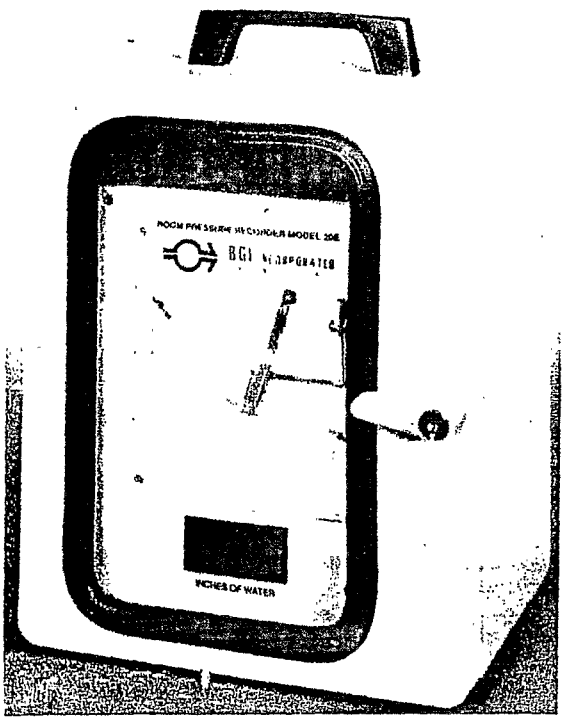

Secondary Filters
A true depth loading filter (3 ply - 3 density). High porosity impingement prefilter. Secondary high density interceptor. Final stage strainer prevents unloading. TRI-DEK Internal Ring Link Filters eliminate perimeter and joint leakage, add more than 30% to filtering area and reduce filter changing time up to 70%.

12" x 24" x 2" Secondary Pad	24/case	#8M0100107
16" x 20" x 2" Secondary Pad	24/case	#8M0100109
18" x 18" x 2" Secondary Pad	24/case	#8M0100111
24" x 24" x 2" Secondary Pad	24/case	#8M0100115

HEPAs
Tri-cell HEPA filters are constructed of particle board frames, aluminum separators and high strength, waterproof glass microfiber paper media, efficient to 99.97% at .03 microns.

12" x 24" HEPA FILTER	each	#8M0100112
16" x 20" HEPA FILTER	each	#8M0100113

24" x 24" HEPA FILTER	each	#8M0100104

NEGATIVE AIR EQUIPMENT

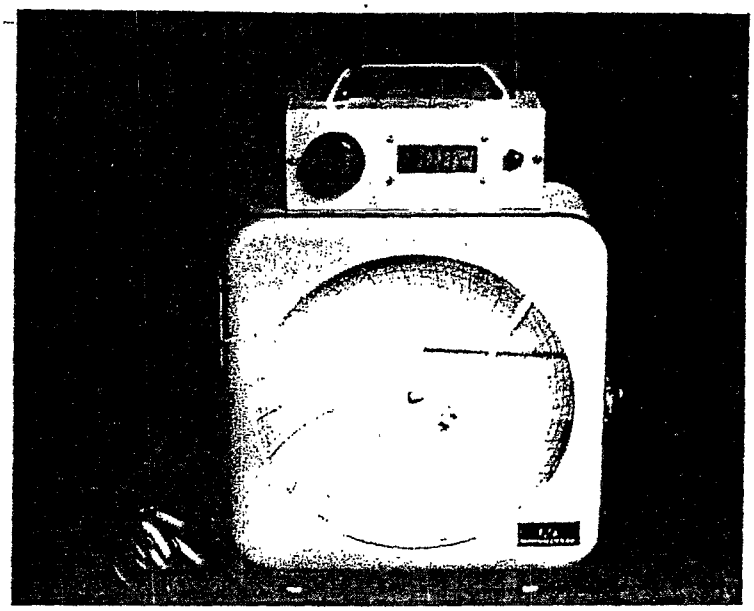

NEGATIVE PRESSURE RECORDERS AND ACCESSORIES

BGI MODEL 20

The Model 20 Negative Pressure Recorder comes in a sturdy weatherproof case. It measures very precise pressure differentials up to a range of .05 inches of water column. This unit utilizes a four inch circular chart based on a 24 hour day, has a digital pressure readout and optional dual voltage capability.

#8C0100101

Replacement Charts	100/pkg.	#8C0100202
Replacement Pen	each	#8C0100203

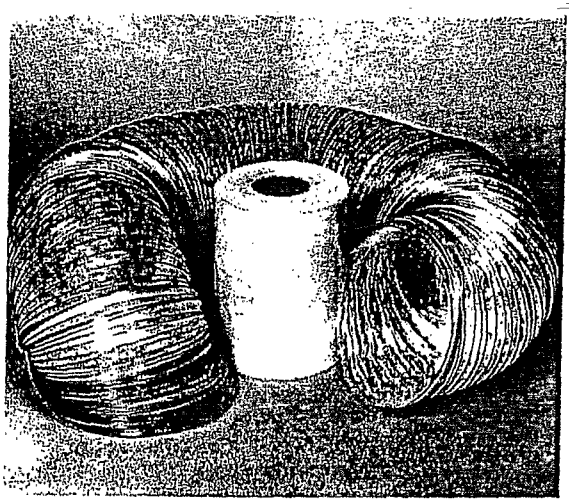

Neotronics EPR™ Documenter

A small portable instrument which will measure and document negative pressures in asbestos abatement work areas. The EPR Documenter gives the user a high degree of accuracy and reliability. This unit comes standard with both visual and audible alarms for maximum security, LCD digital display, 24 hour circular chart paper, NEMA 2 enclosure and an automatic zero feature. It is accurate to 1% of reading and comes with an unconditional two year manufacturer's warranty.

12" x 16" Heavy Duty Respirator Bag (Drawstring)	500/box	#8F0100401

Fresh Kit

A complete system, including all necessary chemicals, tools and accessories for cleaning and disinfecting respirators. Includes two compartment cleaning pail, biodegradable cleanser and ninety pre-measured, water-soluble packets, scrub brush, air bulb and sterile storage bags with airtight seals.

#8P0500100

RESPIRATORS

3M EASI-AIR RESPIRATORS

The Easi-Air 7800 Full Facepiece Respirator combines a comfortable fit with wide versatility, making it the respirator your workers will prefer.

The soft, pliable facepiece with standard nosecup makes the 7800 comfortable. A double flap face seal, combined with easy adjusting straps, gives most workers an extremely good fit and maximum protection. Also featured is a speaking diaphragm for easy, clear communication and a scratch resistant polycarbonate lens.

The Easi-Air 7800 is NIOSH/MSHA certified for use as an air purifying dual cartridge respirator...a Type-C continuous flow supplied air respirator...or a combination mode of air purifying and Type-C continuous flow supplied air. It uses all standard Easi-Air chemical cartridges and/or filters to help meet OSHA requirements in a variety of applications.

3M brings you superior performance and protection in both rubber and silicone half mask respirators. And no matter which Easi-Air Dual Cartridge Respirator you choose, your workers will enjoy an incredibly comfortable fit.

A full line of chemical cartridges and particulate filters help meet your half mask respirator needs. Prefilters are also available for paint spray, pesticide and dust/mist applications.

3M WHITECAP™ POWERED AIR PURIFIER

The 3M Whitecap Powered Air Purifier is suitable for use in asbestos environments requiring protection factors of up to 100 times the PEL (20 fibers per cubic centimeter). This PAPR is complete with an audio and visual alarm activated when air flow falls below required minimum level. This unique feature gives an immediate indication of a weak battery or loaded filter. The lightweight belt-worn design is contoured to fit the hips. The single, large capacity filter is easily replaced and economically priced. Numerous built-in features allow easy cleaning, maintenance and decontamination.

SURFACTANTS & ENCAPSULANTS

CERTANE PRODUCTS FOR POSITIVE ASBESTOS CONTROL

Choose the asbestos-control product that best fits your needs, best handles your problems:

Certane 1000 Liquid Topcoat

Liquid Topcoat completes the removal process by sealing any remaining asbestos fibers and locking them in place. Further, this non-toxic spray-on film adds a layer of fire protection, resisting temperatures up to 2000 degrees F.

#8H0100300

Certane 1050 Liquid Clearcoat

Liquid Clearcoat also locks down any remaining fibers on surfaces where asbestos containing materials have been removed. Drying to the touch in less than two hours, this spray-on formula quickly cures to a clear, smooth and elastic sealant.

#8H0100305

Certane 2000 Liquid Overcoat

Liquid Overcoat Bridging Encapsulant effectively covers hazardous asbestos insulation, forming an elastic overcoat that resists impact and abuse. This non toxic spray-on formula bridges the asbestos fiber and, once cured, resists fire and blistering temperatures as high as 2000 degrees F.

#8H0100301

Certane 2050 Liquid Undercoat

Liquid Undercoat Penetrating Encapsulant penetrates deeply into the asbestos containing material and binds any friable (loose) fibers. As it consolidates the material, Undercoat also adds fire resistance up to 2000 degrees F. This spray-on penetrant can also be used as an effective encapsulant for asbestos removal.

#8H0100302

Certane 2075 Liquid Raincoat

Liquid Raincoat soaks and softens asbestos containing materials for safer, easier removal. This spray-on penetrant effectively inhibits water from evaporating from the material and the asbestos fibers from becoming airborne throughout removal.

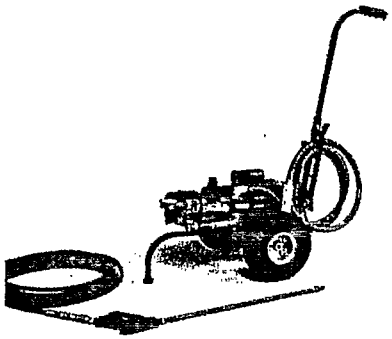

#8H0100303

Certane 3000 Liquid Masticoat

Masticoat Palm Grade Encapsulant binds and fills voids in damaged, broken asbestos coverings on boilers, furnaces, pipes and structural members. As a heavy duty, non-toxic compound that can be troweled or painted on, Masticoat cures to a smooth resilient patch that lasts for years. Masticoat resists the high operating temperatures found in these environments.

#8H0100304

These permanent asbestos control products meet EPA standards for asbestos encapsulation. All are sold by the gallon and available in color-coded five-gallon containers for easy handling and identification.

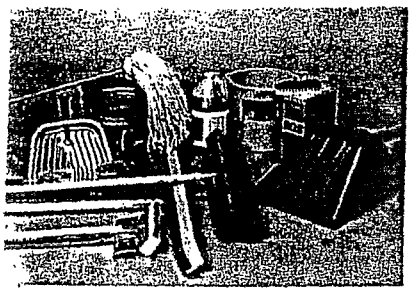

QUICK CLEAN A-1000 Portable Pump

This heavy duty, lightweight system can handle all of your application needs which require a pump. The A-1000 is a direct drive pump designed so that it can be attached directly to the water source using an ordinary garden hose. No belts or pulleys to replace mean less downtime, lower maintenance costs and greater labor savings on the job. It will deliver 1.7 GPM at a variable flow up to 1000 PSI. This pump comes completely equipped for two guns and is dolly mounted on pneumatic tires for easy transport. The A-1000 system includes the pump, a 6 foot suction hose, 50 feet of high pressure hose with quick connect couplings, 1 spray gun and variable pressure controller.

Excellent for spraying encapsulants, surfactants or other industrial coatings. Comes fully equipped with airless pump, cart, professional spray gun, .018" tungsten carbide tip with guard, 25' of high pressure hose and a 30" whip end hose. Delivers up to .5 GPM Dimensions: 22 1/2" x 20" x 24" #8Q0100200

Titan LX-80 Airless Spray Gun is complete with swivel hose fitting, in-line filter, trigger guard and reversible self cleaning tip. 3600 PSI rating. All metal construction. Weight: 20 oz. #8Q0100201

Airless Hose 50' High Pressure hose handles solvent or water based materials. 3000 PSI rating with .25 ID. Temperature range minus 40 to 180 degrees F. #8Q0100202

VACUUMS & ACCESSORIES

TORNADO ToxVacs

Seven sure ways to vacuum and contain hazardous wastes quickly, cleanly and safely. Vacuum and trap asbestos, lead, airborne pollutants and other toxic waste and comply with OSHA safety standards.

Portable ToxVac (Back Pack)
Powerful, lightweight for dry pick up where wheels won't go. Three stage filtration system. Attachments and accessories included. Waterlift 80".
CFM 69/NA
Weight: 17.5 lbs.
Dimensions: 15" x 8 3/4" x 13 1/4" #8S0100103

Compact ToxVac - Model 177
1.7 HP, two-stage bypass, 19,700 RPM. Sixteen gallon stainless steel tank. Waterlift 95". CFM 90/100. Five-stage filtration.
Weight: 75 lbs.
Dimensions: 29 1/2" x 19" #8S0100102

Heavy Duty Compact ToxVac Model 320
1.5 HP, 10 AMP, three-stage bypass, 11,500 RPM. Sixteen gallon stainless steel tank. Waterlift 85". CFM 91/97. Six-stage filtration.
Weight: 82 lbs.
Dimensions: 31 1/2" x 19" #8S0100100

Air Powered ToxVac Model T-16
Venturi powerhead with valve and pressure gauge included. Sixteen gallon stainless steel tank. Waterlift 242". CFM 83/NA. Five-stage filtration.
Weight: 53 lbs.
Dimensions: 35" x 19" #8S0100101

VACUUMS & ACCESSORIES

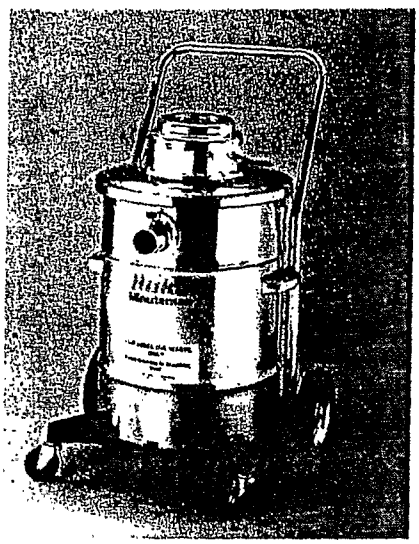

HAKO Minuteman

Series 800 asbestos vacuum systems for safe control and removal of asbestos and other toxic contaminants.

Hako Air Vac X703-15/30/55

These compressed air vacuums provide more CFM at higher waterlift for exceptional performance. Operates on Venturi principle without electricity and has no moving parts. Available in 15 gallon (shown), 30 gallon, and 55 gallon tank sizes. All 15 gallon vacuum motor lid assemblies can be converted with adapter to a standard 30 or 55 gallon steel drum for wet or dry recovery.

Vaculoader 3" Male Coupler		#8S0400124
Vaculoader Wand Friction Kit		#8S0400125

The greatest advantage of these systems is automatic bag loading, which expedites your entire cleaning operation. All debris is vacuumed directly into standard poly bags for quick and clean disposal. Workers do not have to physically handle debris, thereby dramatically reducing human exposure.

All units utilize dual filtration. Vactagon HEPAs are rated at 99.97% efficiency at 0.3 microns. Each HEPA filter is individually DOP tested and meets or exceeds all latest federal and state regulations.

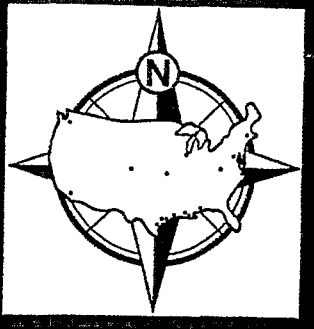

ASBESTOS RESPONSE KIT

#8K0200140

Asbeguard's Asbestos Response Kit Contains:

- 2 - 10" Horizontal Safe-T-Strip Glove Bags
  2 - 10" Vertical Safe-T-Strip Glove Bags
  1 - 10" Valve Safe-T-Strip Glove Bag
  1 - 10" Tee Safe-T-Strip Glove Bag
  2 - 6" x 54" Safe-T-Strip Extensions
  — Glove Bags allow quick, easy isolation of piping and effective personnel protection. Durable, clear vinyl with attached zipper makes for ease and usefulness.
- 1 Set - 30" Safe-T-Strip Shoulder Straps
- 1 Set - 60" Safe-T-Strip Shoulder Straps
  — Strong nylon with spring-loaded steel buckle for fast action sealing.
- 6 - 48" x 60" Caution Labelled Poly Bags
  — Yellow with black printing c/w nylon tie straps.
- 2 - Tyvek Disposable Coveralls
  — X-Large allowing for flexibility in fit.
- 1 - Protective Respirator with Filters
  — Meets NIOSH/MSHA (applicable) approvals.
- 2 - Warning Signs
  — To ward off unwanted personnel.
- 4 - Stick-On Caution Labels
  — Peel back for quick application.
- 1 section - 20' x 3' Sheet Poly
  — For patching or throw-down.
- 1 Roll - 2" Duct Tape
  — Waterproof and strong.
- 1 - 1 Gallon Pressure Pump Sprayer
  — Light weight and durable.
- 1 Quart - Asbestos Surfactant
  — Superior penetrant to break water surface tension.
- 1 - 1 Gallon Plastic Bucket
  — For final wash-up.
- 6 - Disposable Cloth Rags
  — Clean the pipe, drop the rag in the bag.
- 1 Package - 20" Wire Flexisaw
  — Serrated steel wire cuts through insulation.
- 1 - Utility Knife
  — Complete with retractable blade.
- 1 Pair - Tin Snips
  — For any wiring encountered.
- 1 Gallon - Lagging Adhesive
  1 Section - 5' x 6' Canvas
  1 - Paint Brush
  — For repairing or patching damaged insulation jacketing.

★★ Contents fit in a self-contained easy-to-handle plastic container ★★
— with complete How-To Manual
— all that's required is water
