Hey Ryan—just checking in on this request again. Would love to connect on an issue related to underground storage tanks. If you want to refer me to one of your colleagues, I'm completely fine with that, btw. I just have a question and need some insight on how to address a specific issue—one I think will save money and prolong the life of USTs storing biofuels.

Thanks, Ryan.

Subject: Longtime...

Hey Ryan—it's been a longtime. I met with you Stewart Barber Young a few years back, who used to work for my firm before going over to USTR. I think last time I saw you was at the Monocle. I hope this note finds you well.

I was wondering if you have time for a quick meeting or even a call. I need to get your thoughts on something having to do with underground storage tanks and a North Texas engineer.

Let me know what if anything works on your calendar.

Thanks Ryan.
