Dear Carol,

Yow! The document you produced looks wonderful. Thank you very very much.

I have sent it on via express mail to our coordinator there, Peter Whitehouse.

We will keep you in the clips. At some point in the fall it may be a neat idea for

Renate Krosa, Shelley Stewart (working on dioxin strategy as it relates to Tacoma)

and myself to pay you a visit. Let us

know about your FOIA re: Nat. dioxin

strategy. Shelley has got one going right

now to find out where the sites were in

Tacoma that were tested. They have

responded that our request was denied

due to "medical or personnel" invasions

of privacy. Shelley is appealing the

decision. We'll be in touch.

Yours,

A handwritten signature in black ink, appearing to read "Jim Puckett". The signature is fluid and cursive, with a large, sweeping "J" and "P".

Jim Puckett
