Re: Vinyl Chloride Developmental Toxicity Study

Dear Dr. Cibulas:

Pursuant to the Memorandum of Understanding for the Voluntary Research Program adopted by the Chemical Manufacturers Association Vinyl Chloride Health Committee and the Agency for Toxic Substances and Disease Registry (ATSDR), I am submitting for ATSDR review the final report of the Developmental Toxicity Study portion of the study, "Vinyl Chloride Combined Inhalation Two-Generation Reproduction and Developmental Toxicity Study in CD Rats." As per the project study plan (revised April 22, 1997), the next progress report on the Reproductive Study portion is due to ATSDR in April, with the final report to be submitted in July 1998.

Should you have any questions or comments about this submission or the Reproductive Study, please feel free to call me at 703/741-5639.

Sincerely,

Wendy K. Sherman
Manager,
Vinyl Chloride Health Committee
