DOC#: WRG144

DOCUMENT DESCRIPTION: 1964 Letter from Dr Wilson to Mr Kelley regarding report on spirogram studies of Zonolite employees.

AMERICAN BOARD OF SURGERY

PHYSICIAN

November 20, 1964

J. A. Kelley, President
Zonolite Division
W. R. Grace & Co.
135 La Salle Street
Chicago, Illinois

Dear Mr. Kelley:

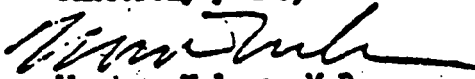

I am enclosing a report of preliminary analysis of spirogram studies on Libby Zonolite employees. A copy of this report and also a report of the individual's findings have been sent to the employee's personal physician.

If you decide to have this work analysed further, I will be glad to forward my records in my possession to the researcher chosen.

It is my personal opinion that further work on this would best be conducted under the control of a specialist in respiratory diseases. In this section of the country, the man best qualified is S. Thatcher Hubbard Jr., M.D. of Spokane, Washington.

With best personal regards, I remain,

Sincerely yours,

Woodrow Nelson, M.D.
