Dr. J. F. Knox,
C/o Turner Brothers Asbestos
Co. Ltd.,
Spotland,
Rochdale.

17th April 1964.

Asbestosis Cases

I had cause recently to look back to your letter to me of 27th January about mesothelioma. I recall that you were shortly to meet Dr. W. J. Smither of Cape and I wonder whether any further useful information emerged.

27th January, 1964.

Thank you for the newspaper cuttings. I have also got another one from The Times. I have nothing to advise about this at the moment. I hope, however, to meet Dr. W.J. Smither of the Cape Asbestos Company next week and he may be able to add some useful information. At any rate, Dr. Hourihane, the pathologist concerned, is known personal to Dr. Smither and he may have some further details of interest to impar on the subject. In the meantime I think we are wise to take no specifi action.

J.F. Knox
