TO LICENSEES:

Revision Freight Allowance Ruling
Schedule VI - Page 2 - Paragraph 3
Revision in Line 47 - Effective 12/25

This is to advise that developments since publication of elimination of freight allowance on less than 10 jackets indicate the necessity for rescinding this ruling.

Will you therefore disregard the memo of December 9th on this subject.

It has been extremely difficult to find a common ground on which to solve this problem. It is obvious that allowance of freight on these small lots is expensive.

I would like your consideration of a general revision of Range Boiler Jacket prices, sufficient to take care of advancing costs, to be made effective some time after the first of the year.
