Would you please conduct a computer search for standard manufacturing process (SMP) reports for the following chemicals at the Krummrich plant:

Chemical	Departments
2,4-dichlorophenol	237
p-dichlorobenzene	224, 233
vanadium catalyst or A-9 catalyst or #11 catalyst or #55 catalyst or F-210 agent	210, 211
any chemicals from the Chemical Warfare Services plant	260, 265, 270 (during the World War II period only)

My charge number for this search is 11 000 744.09 - 257. If you need any additional information, please call me at 4-8845. Thanks!
