W.R.Richard - St. Louis

P.G.Benignus	- St. Louis
H.W.Dahlstrom	- D.B.13
P.J.A.Marsh	- London
D.A.Olson	- St. Louis
H.A.Vodden	- Ruabon
E.P.Wheeler	- St. Louis

Attached are further cuttings taken from last weekend's U.K. press. The detection of relatively high concentrations of PCB in some of the birds also made the radio news bulletins on Saturday morning.

Alarm over these findings would seem to be a good deal more serious than indicated in the previous press cutting I sent you a week ago.
