DOCUMENT DESCRIPTION: Memo from Fluid Sealing Assoc

FLUID SEALING ASSOCIATION

[illegible]

BULLETIN

[illegible]

TO: All Members

FROM: Bruce E. Parker, Jr.

SUBJECT: LABELS AND WARRANTIES

At the last Board of Directors' meeting of the Fluid Sealing Association held in June of 1977, it was decided that the Association should look into the endorsement of a "Labeling Program" for its members.

In order to accomplish this task we need to know what kind of labels are presently being used by the members. Several members have also asked that we obtain information on the kinds of warranties that are being used.

Once this information has been received in this office, President Rubenstein will appoint a committee to study the labels and warranties presently in the industry and then with the advice of legal counsel the Association will come up with a recommendation.

Please take the time now to send us your labels and warranties and return the attached card promptly so that we can determine how many member firms will be participating.

Thank you for your help and cooperation.
