

1 are doing the work that you are concerned about?

2 A Yes.

3 Q And -- well, one of the charts that was put
4 up --

5 MR. HOFFMAN: Can we find Ford 91?

6 MR. WILLIAMS: It is over there in that
7 pile.

8 (Whereupon, discussion off the record.)

9 BY MR. HOFFMAN:

10 Q You were asked some questions, and I thought
11 there were references to a study by NIOSH.

12 Are you familiar with a NIOSH study in 1980,
13 sir?

14 A I think I know which study you are referring
15 to.

16 Q Well, and maybe I wrote my notes down wrong,
17 but I thought you referred to a NIOSH study during
18 your examination and talked about levels of dust
19 exposure that were found by NIOSH when they went to a
20 garage to do a study of the amount of dust connected
21 with using brake materials?
