SUBJECT MEDICAL PROGRAM - Memo of 21 Nov	DATE 27 Nov 74
--	--------------------------

MESSAGE:

1. I assume Hyman will handle VF people and Mantell - Town will keep records.
2. The "one-day" assignment is overly conservative and really impossible to monitor.
3. NIOSH originally defined emergency exposure as showing acute symptoms.
4. As stated in other comments, I believe that actual exposures, not ranges, will be required.
