University of Cincinnati
Cincinnati 19, Ohio

Dear Bob,

Enclosed are copies of my letters to Schepers and Fleming. I think it would be wise if Ronald Lane's revised paper were sent to you so you could review and approve it before forwarding it to me.

So far as my comments about your material are concerned, I just want to be sure that what we publish is exactly what you would like to have appear in the Archives. You are the one to whom we all look in this field and I would much prefer to rest on your judgment.

Thank you for your advice about moving Larsen's paper. We will do this.

We are deeply appreciative of your cooperation. With kindest personal regards,

Cordially,

Katharine R. Boucot, M. D.

G. W. H. Schepers, M.D., D.Sc.
Haskell Laboratory for Toxicology and
Industrial Medicine
E. I. du Pont de Nemours & Company, Inc.
Wilmington 98, Delaware

Dear Doctor Schepers:

We have received a bound copy of the papers presented at the Lead Symposium held at Kettering Laboratory February 25 to 27, 1963, and would very much like to publish the entire proceedings in the Archives of Environmental Health.

Will you please let us know whether or not your contribution, "Tetraethyllead and Tetramethyllead--Comparative Experimental Pathology," as included in this bound copy (distributed to all in attendance) constitutes the final draft as you would like it to appear in the Archives? If not, will you be good enough to send us two copies of your revised manuscript?

With kind regards and the anticipation of a prompt reply,

Cordially,

Katharine R. Boucot, M. D.

Allan J. Fleming, M.D.
Medical Director
E. I. du Pont de Nemours & Company, Inc.
Wilmington 98, Delaware

Dear Doctor Fleming:

We have received a bound copy of the papers presented at the Lead Symposium held at Kettering Laboratory February 25 to 27, 1963, and would very much like to publish the entire proceedings in the Archives of Environmental Health.

Will you please let us know whether or not your contribution, "Industrial Hygiene and Medical Control Procedures Followed in the Manufacture and Handling of Organic Lead Compounds," as included in this bound volume (distributed to all in attendance) constitutes the final draft as you want it to appear in the Archives? If not, will you be good enough to send us two copies of your revised manuscript?

With kind regards and in anticipation of a prompt reply,

Cordially,

Katharine R. Boucot, M. D.
