Subject: Snap-Off I Strapping Tool

Gentlemen:

We bought your strapping tool because we thought it was an American made tool. We have used the Taiwan tool and it is most unsatisfactory.

The tool is inferior in our opinion. After a very short period of time it no longer performs as it should. The tensioning gear wheel or pawl starts to slip and you can't snug up as you would like.

We are accepting these six (6) tools because we have a job to do and no choice but to use them. However, if they fail to perform, you may expect to hear from us for either parts or replacement of the tool at your expense.

Very truly yours,
