General

OUTSTANDING SAFETY PERFORMANCE

CONGRATULATIONS ARE CERTAINLY IN ORDER TO EACH AND EVERY EMPLOYEE AT THE CARONDELET PLANT FOR THEIR EFFORTS IN MAKING 1985 THE SAFEST YEAR IN CARONDELET HISTORY.

THE PLANT COMPLETED 1985 WITH ONLY 2 RECORDABLE INJURIES AND NO LOST WORKDAY INJURIES. OUR BEST PREVIOUS RECORD WAS 3 RECORDABLES AND 1 LOST WORKDAY INJURY IN 1983.

EACH OF YOU SHOULD BE PROUD OF THIS ACCOMPLISHMENT, BECAUSE THIS TYPE OF IMPROVEMENT DOES NOT JUST HAPPEN, IT TAKES THE CONCENTRATED EFFORT OF ALL EMPLOYEES AND A TOTAL COMMITMENT TO SAFETY BY EVERYONE.

NOW THAT WE HAVE DEMONSTRATED THAT WE CAN REDUCE THE NUMBER OF INJURIES AT CARONDELET, LET'S SET OUR SITES ON A BETTER RECORD IN 1986, NO INJURIES.

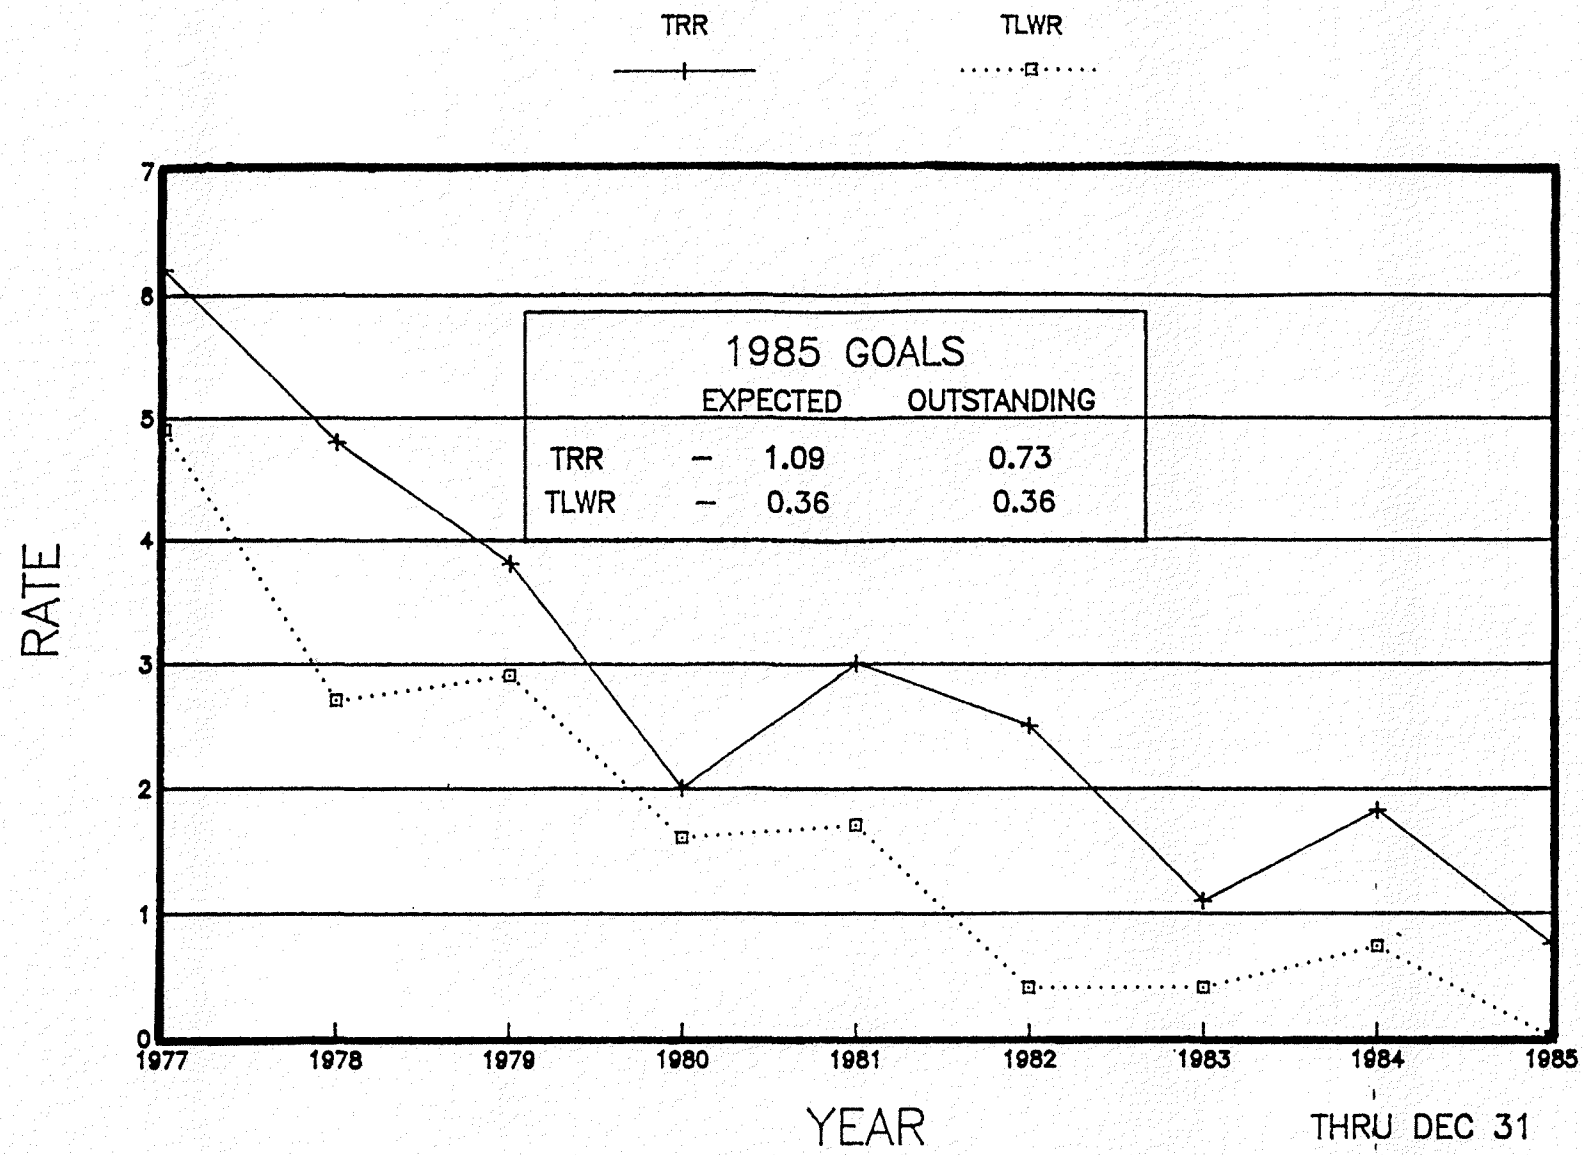

THANKS, AND CONGRATULATIONS AGAIN, ON A JOB WELL DONE.

JERRY E. BISHOP
PLANT MANAGER

CONGRATULATIONS TO THE ENTIRE CARONDELET TEAM ON ACHIEVING ITS BEST EVER SAFETY PERFORMANCE IN 1985. HAVING ONLY TWO RECORDABLE INJURIES AND NO SERIOUS INJURIES IS A FANTASTIC TURNAROUND FROM 1984 AND TRULY A MAJOR STEP TOWARD THE LEVEL OF SAFETY PERFORMANCE THAT IS REALLY APPROPRIATE FOR ALL OF YOU.

I THINK YOU VE ESTABLISHED THE SOLID BASIS TO CONTINUE EVEN BETTER LEVELS OF SAFETY. CONGRATULATIONS AND ALL THE VERY BEST FOR AN INJURY FREE 1986.

LLOYD J. BOESCH JR.

Bulk	2217	NaK Packing	397
Boiler Room	2407	STP	366
Acid Plant	1653	Cal Packing	310
PyRan	1241	Maintenance	188

TO : J.E. Bishop - 1720

I want to congratulate you and all Carondelet Plant employees on your record safety performance in 1985. A record of two recordable injuries with no lost work day cases is an excellent achievement versus recent years. This gives a good idea of what it takes to totally eliminate injuries. 1985's safety performance was due to the hard work and conscientious effort of all of you. In particular, I want to thank Bill Lenger and the rest of your 1985 Safety Committee for their outstanding program.

I will miss my close association with all of you at Carondelet but still intend to keep track of your progress and make an occasional visit.

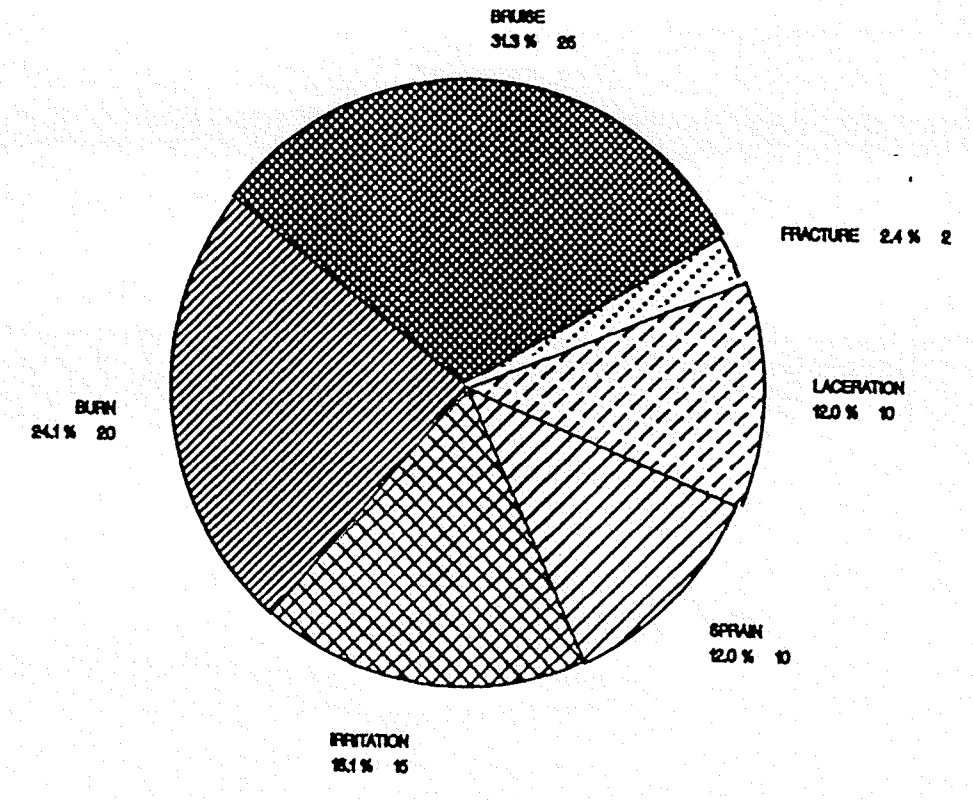

Best regards,

E.P. Janssen

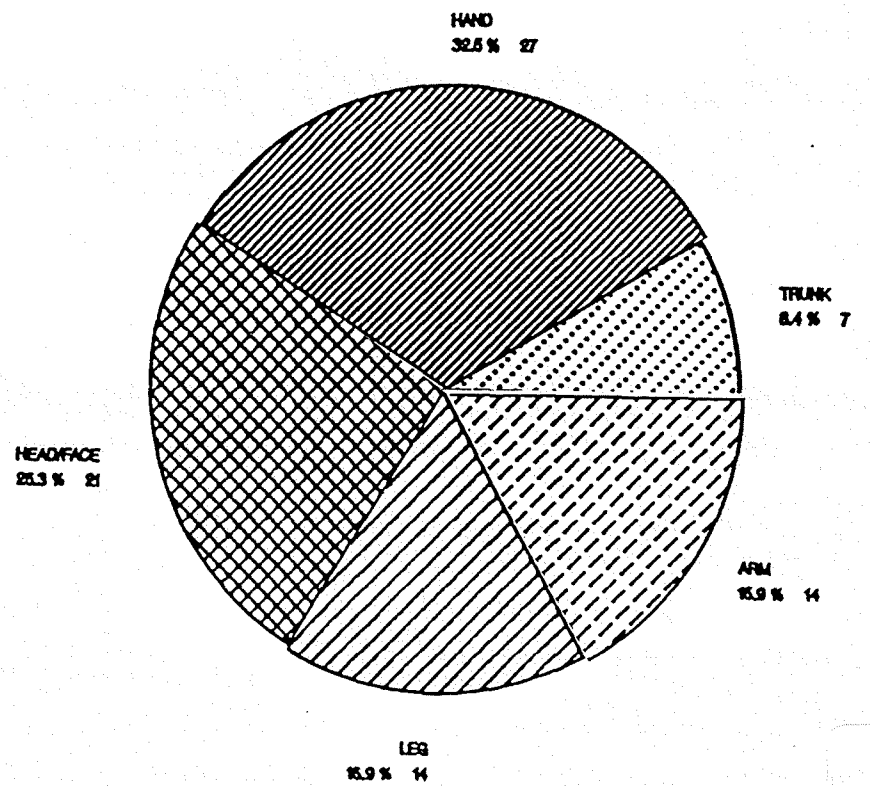

DSW 134999

Shown below are the first aid injuries for 1985, by type and part of the body affected. You can see the hands and face area make up about 58% of the injuries. In 1986 we must emphasize the use of personal protective equipment to reduce the number of first aid injuries.
