Subject: RE: Shell Meeting with Shanghai Mayor - June 11th

BHRC Oversight & Communication Committees -

For your consideration, discussion & decision...

The attached note from Lauren Iannarone offers to have Malcolm Brigand (a senior Shell executive) include the Shanghai Benzene Study as a topic for discussion during his June 11th meeting with the Mayor of Shanghai.

Best Regards - Bruce J.

Subject: Shell Meeting with Shanghai Mayor - June 11th
Importance: High

Bruce and Matt:

As we may have mentioned in the past, Malcolm Brinded, one of our senior executives, is a participant on the Shanghai Mayor's business council. Malcolm will be in Shanghai on June 11th meeting with the Mayor.

I am writing to ask whether the PI's would be interested in Shell providing a specific message related to the study. Malcolm may raise it in the context of how we are supporting Shanghai but we do not intend to raise the SHS unless there is a particular need.

It would also be helpful if we have some background/feedback on previous engagements with the mayor's office. In particular, who may have attended, when the meetings occurred and whether there have been particular areas of interest.

Thank you for your help and support on this. Unfortunately, the timing is tight as the meeting is coming up. Any information you could provide early next week would be greatly appreciated.

Best Regards,

Lauren
