Mr. McCormick has previously secured BAI and FDA approval for our compound designated as Geon 81421, Red, and indicated in his memo of March 21st that we should have no difficulty in getting approvals for a similar composition identified as 81700. I would appreciate your going ahead now to negotiate for these approvals.

The composition in question is as follows:

101EP	100
2301	5
1010	5
Iron Oxide	4
Titanium Dioxide	2
Kaydol 90-BT	
(Mineral Oil)	3
Calcium Stearate	1
