10-3 BRICKMAN

A FAMILY AFFAIR

Fidgeting, nose-picking, a tormenting rectal itch are often telltale signs of Pin-Worms... ugly parasites that medical experts say infect 1 out of every 3 persons examined. Entire families may be victims and not know it. To avoid Pin-Worms, they must be killed in the large intestine where they live and multiply. That's exactly what Jayne's P.W. tablets do... and here's how they do it:

First—a scientific coating carries the tablets into the bowels before they dissolve. Then—Jayne's modern, medically-approved ingredient goes right to work—kills Pin-Worms quickly, easily. And your pharmacist. Don't take chances with dangerous, highly contagious Pin-Worms which infect entire families. Get genuine Jayne's P.W. Vermifuge... small, easy-to-take tablets, special sizes for children and adults.
