Dear Dan,

We have in our computer files some details of 247 former CSR staff employees who worked at Wittenoom Gorge. Unfortunately at the time these data were collected from the original records only surname, forenames, date of birth and dates of employment were recorded. It would be most helpful to us if we could now obtain some additional details such as, actual occupation, nationality, previous employment history, marital status, next of kin, etc. These additional details are very helpful to us when we are trying to decide whether or not a person of same name whose death certificate we have is the same person who worked at Wittenoom Gorge.

Would it be possible for us to access the records at North Fremantle again and collect these additional details?

I look forward to hearing from you on this matter.

With best wishes,

Yours sincerely,

Bruce Armstrong
