Per Sterling Clark's TWX, your order SLC-208 which shipped 1-27-76 in RBBN 64123 contains 36 5-gallon pails asbestos free Ready-Mix. I would appreciate your having Pete Peterson arrange a field trial with this material. Bill Gettel from our Tigard Lab will be in touch with Pete on this, and we would like to have Bill spend a day with Pete when this material is used. Appreciate your help.
