Mr. B. B. Turner, President
Ethyl Corporation
100 Park Avenue Bldg. at 41st St.
New York 17, N. Y.

Dear Mr. Turner:

Thank you for your letter of December 5th in which you offer to supply me with information on the use and application of lead tetraethyl that would be useful to me as a member of the Surgeon General's Committee that will consider the question of increasing the permissive amount of tetraethyl lead in gasoline.

In response to your suggestion I have written to Dr. Robert A. Kehoe expressing a desire to obtain pertinent information. A copy of this letter is attached.

Sincerely yours,

William P. Yant
Director of Research
