SUBJECT

Comments on Revised Bulletin P-0130
Respiratory Protective Program

REFERENCE

TO

Tom Rayn

0-10A

After reviewing the newly revised Respirator Program Bulletin the only additional comment that I feel that should be considered is a section which would include a medical checkup and/or screening on a semi-annual basis for personnel who are required to use respirators in the performance of their work. I feel that the new revised bulletin is complete in all the other sections.
