Mr. Edward L. Sones
Vista Chemical Company
P.O. Box 500
Ponca City, Oklahoma 74602

REF: VINYL CHLORIDE MONOMER
ZERO HEADSPACE
ANALYTICAL QUOTATION

Dear Mr. Sones:

ETC, Inc. is pleased to submit the following Quotation for providing the analytical testing you requested.

QUOTATION

ETC will provide all manpower and resources required to analyze your PVC material samples for Vinyl Chloride Monomer utilizing the toxicity characteristic leaching procedure (TCLP) which will require the use of the Zero Headspace Extractor (ZHE). The charge for this will be \$225.00 per sample. The charge for a liquid sample will be \$75.00 per sample.

EPA "Test Method for Evaluating Solid Waste (SW846) will be followed. The Gas Chromatographic Condition will be as described in Method 8010. This utilizes the Hall Electrolytic Conductivity Detector. Sample introduction will be as described in Method 5030, namely Purge & Trap.

All analytical results will remain your property which we will not release without your expressed consent. As we also discussed once we get your approval on performing the testing we will purchase another Zero Head Space Extraction Unit.

If you have any questions please feel free to contact me. We appreciate the opportunity to be of service.

Very truly yours,

Michael J. Cimballo
President
