August 6, 1973

MEMO TO FILE

Mr. Tom Marchewka (Assistant Department Head Organics 1 at Groton) called regarding use of white asbestos packing. Purchasing told him white asbestos is GRAS; only blue NG.

I read the 1910 definition and told him unless supplier could assure him that none of the six minerals were present, beware. Wanted copy of standard. I called Charlie Archer to supply.

Wondered about flax/teflon. I told him that flax was ok.
