How very practical for the boards, administrators and others concerned with the matter to meet some pleasant day and have a conference and to plan together To grow together. To meet to- gether the inevitable possibilities and problems of this increasing community It makes sense, doesn't it?

I am just returned from four interesting and inspiring days, attending the sessions of the United Nations Education, Science and Culture Organization convening in San Francisco There were three thousand of us who took part The idea fostered by this department of the United Nations is an excellent one. This is an association of the peoples of forty nations who are seeking to understand one another and to solve the problems of peace and war in the mind It's very uplifting to think about such an organization and such a procedure They are doing a great work Some one told me, there were more persons present at that conference in San Francisco, per capita, from the Monterey Peninsula, than from any other locality.

It's a great idea, this working together of forty nations, sharing their resources, seeking mutual understanding through education, science and culture It's also a great idea, isn't it, for our three interpenetrating nature-endowed municipalities? —R. B

tend benefits of the Social Security law

Senator Barkley (D-Ky.), Senate minority leader, said after a White House conference today that the message will go to Capital Hill within a few days

Presumably the message will recommend extension of Social Security benefits to farm labor, domestics, self-employed persons and other groups not now covered

The conference also was attended by House Minority Leader Rayburn (Tex.) and Democratic members of the Senate Finance and the House Ways and Means Committee
