Mr. W. Brindak - New York

CALCIUM SILICATE PRECAUTIONARY LABEL

After an April audit I gave you the precautionary label which I had removed from one of the competitor's cartons which contained Calcium Silicate Pipe Insulation. You told me that you had already had this and had given it to the Legal Department. I have received a request from Walter Brindak for a copy of this precautionary label together with a statement that he wishes to furnish it to the Legal Department. Will you please advise Brindak and myself what action has been taken concerning the precautionary label that the competitors use and if at all possible, furnish Brindak a copy of the contents of this label.

H. V. Smith
