**Objet :** RE: Follow-up meeting proposal

Dear Ms [REDACTED]

Also my best wishes for 2022.  
 Apologies for not replying on your previous email.

We would be interested to have a meeting in January or February and learn (even) more on the substitutes for PFAS polymerization aids and on decommissioning and recycling.

From RIVM [REDACTED] and I would be interested to attend.

Kind regards,

[REDACTED]

Dear Mr. [redacted] 5.1.2e, first of all my best wishes for 2022 !

I am just following-up on the below email and would like to know if you would be interested by this meeting proposal for January or February.

Best regards,

**Objet :** Follow-up meeting proposal

Dear Mr. [redacted] 5.1.2e

As a follow-up to the second call for evidence, we would like to extend an invitation to discuss in more detail some aspects of our submission. In particular, we would like to share some additional details regarding the substitutes for PFAS polymerization aids used in the manufacturing of Arkema PVDF, our outlook on PVDF decommissioning & recycling and our conclusions on recent data collected on PVDF biodegradation, stability and aging.

We remain committed to generating other information to help support the regulatory process as needed. We have also hired a consultant to help us improve our understanding of the end of life of PVDF. Your feedback on

the study design would be very important to us. We would also be interested to know if you have identified uses for which sufficient data have not been provided during the second call for evidence and whether we can assist you through our contacts in the business community to obtain such information.

Please let me know if you would be available during beginning of January to arrange a meeting.

Kind regards, and wishing you a Merry Christmas,

5.1.2e Fluoropolymers
