Source: Abstract of "Industrial Health Hazards and Employer Responsibility" by D.E.

Cummings, in Ceramic Abstracts Compiled by The American Ceramic Society, Vol. 16, No. 5

Quote: "It is the executive's responsibility to inform himself on dust hazards, conduct surveys of his plant, and inaugurate a program of control... Cummings recommends that an educational program similar to that used in 'Safety First' campaigns be inaugurated to combat the dust hazard." [emphasis added]
