Is there a file (their letter 6/11/63?) No file!

Dr R.E. Kelly, you may wish to handle this one. Dave B. 7/24

Attached is a letter (copy) from the TK Products Inc. requesting toxicological information on Aroclor 1254 and Aroclor 5460. I don't know if you have any information as it specifically concerns the use of these Aroclors in rubber epoxy compounds, but certainly we must have some approvals for these in applications of this type.

Can you write me what you have. Thank you, Dave.

A. R. HEMPEL

Monsanto Chemical
800 N. Lindbergh Blvd.
Wilmington 99, Delaware

Gentlemen:

This Company is endeavoring to have its product TRI Kote, a chlorinated rubber epoxy concrete treatment, approved by the U.S. Department of Agriculture for use in food and meat processing establishments. We wrote to you on June 11, 1963, enclosing a copy of a request from the Department of Agriculture asking for composition of certain components used in our formula-Arochlar 1254 and Arochlor 5460.

If you prefer, forward the information requested directly to Mr. R. H. Philbeck, Chief Staff Officer for Chemical Evaluation and Control, USDA, Agricultural Research Service, Meat Inspection Division, Washington 25, D. C. All information will be kept in strict confidence.

May we please have your cooperation, so that this approval can be granted.

Very truly yours,

Paul P. Stock
General Manager
