Cincinnati, Ohio 45219

Dear Dr. Kehoe:

I would like to acknowledge your letter of May 10 and to express our appreciation for the effort you have undertaken regarding some answers on the possible acceptability of lead containing glasses as tank linings for food services.

I have discussed your suggestion for further investigation with other here, and we feel that our situation is such that we should not pursue it further at this time. However, if we reach new decisions in future discussions, we will certainly be in touch with you again about completing this investigation.

Thank you for checking into this matter for us, and we will look forward to a possible contact in the future.

Very truly yours,

O. J. Britton
Technical Development Department
