A Let me see. About a chassis and electrical. Warning In Shop Manuals, page 2. Again, looks to be a compilation of a number of documents.

Q Is it fair to say it looks like somebody went through all of the shop manuals up through a certain year, up between 1950 and 1982, I think it says, to, to take a look at what language in those manuals may have addressed hazards associated with asbestos in brake use.

A That could be an explanation of this, yes.

Q Well, let me make a look at it. Let me --

MR. KRAUSE: I don't know how this witness knows what --

MR. BUTLER: That's what I want to see.

Q (By Mr. Butler)Let me ask you -- well, first of all, do you know who, who came up with this document or who put it together?

A With the document that's all stapled together?

Q Yes.
