Cincinnati OfficeSubject: Re. American Refractories
"Caution" Notices

We note Mr. Miller's letter of June 10th in answer to your inquiry of June 2nd. He indicated approval of the note being printed on the bags or applied by the use of a sticker label. You are aware that the label idea will be a little expensive, up to half the cost of the bag, due mainly to the amount of time to adhere the label.

For your information, our supply of printed Stax-On Cement bags would last 9 months at the rate of usage in the first six months this year. On the Uniote bag, we have 4,900 on hand and have had no usage during the first six months of this year. Actually, we have used only 700 bags in the last 3 1/2 years. We still have the original supply purchased in 1958. Maybe this product needs a little transfusion to get it back into circulation.

We await your comments.
