Subject: Opening in the public affairs office

Ex. 6 - Personal Privacy

Good Evening Ryan,

I hope all is well. I don't know if you remember me but we met when I was working at the Senate Energy and Natural Resources Committee and when you were at EPW. First, Administrator Pruitt is doing a great job and the EPA is finally (after 8 years) doing great work.

Second, I am reaching to see if you had time to discuss the opening left in EPA's public affairs office by the departure of Amy Graham as I would kindly ask to be considered for that position. Currently, I am a spokesman at the American Petroleum Institute here in D.C. Before joining API, I spent five years on Capitol Hill in energy communications positions in the House and the Senate. Before Capitol Hill, I worked for Neil Cavuto at Fox News in New York for almost 4 years as a booker/producer. I know how to communicate complex energy policy issues out to the media.

I am a true believer in President Trump's agenda and fully support Administrator Pruitt's mission and work he has done at EPA. Would you have time to discuss this open position in the EPA's public affairs office?

Thanks Ryan and I look forward to hearing back from you.
